

Weekend Mentoring gets Wild at the Maryland Zoo

March 17, 2012

On Saturday, March 17, the Bridges seventh grade and their weekend mentors met at the Maryland Zoo for an afternoon of animal fun. Following the group's discussion of favorite animals, mentors and students divided into teams to eat lunch and strategize for their zoo scavenger hunt. The hunt and activities in the Zoo were enjoyed by mentors and students alike as shared in our end of trip reflection.

The group gathers for an ice breaker before lunch.

Christian hams it up for the camera in Crickett's sunglasses.

Christian, Jaun, and Robert study the antelopes for answers in the scavenger hunt.

Students hanging out at the end of the scavenger hunt.

Scavenger hunt winners announced and participants share highlights before departing.
