Dominic Gordon Thomas

Dear Dominic,

Congratulations ... again! Not only have you been accepted to Johns Hopkins University, you have also been awarded a place in the Whiting School of Engineering's biomedical engineering (BME) program, one of the leading programs of its kind in the world. As a BME major at Johns Hopkins, you will join a group of carefully selected classmates on an incredible journey to the forefront of an exciting new field of study where engineering and medicine converge.

The Johns Hopkins BME program consistently ranks among the very best in the nation. Your participation in BME translates into exceptional opportunities. You will study with leading experts in the field, be involved in their groundbreaking research, and explore new discoveries into how the problem-solving discipline of engineering can improve and transform the science of medicine. You'll receive solid preparation for graduate school in medicine or engineering, and you'll be positioned for a rewarding career in the growing biotechnology field. Johns Hopkins is a place where self-discovery often means new discovery, and we look forward to your contributions to this burgeoning discipline.

Again, on behalf of all of us here at the Whiting School of Engineering, my heartfelt congratulations on your acceptance to the university, and especially to the biomedical engineering major. If you have any questions at all about the program or about Johns Hopkins in general, please do not hesitate to contact Engineering Advising at (410) 516-7395 or wseadvising@jhu.edu.

Sincerely,

Nicholas P. Jones
