

View Into the Future Week at Bridges

July 5 - July 8, 2011

Week two at Bridges offered students a view into a variety of careers and opportunities for advanced education. This year's career speakers included a Bridges graduate, a political consultant, a CSI investigator, a member of the House of Delegates, and a technical director at WJZ-TV. Students also enjoyed view into the future field trips with The Chesapeake Bay Foundation, St. Joe's Medical Center, The Baltimore City Police Department, Goucher College, Towson University, and WJZ-TV.

With two weeks in the books, the Gold Team has taken a 20 point lead in the House Cup standings. They did an incredible job in Wednesday's Team Sporting Events which included basketball, kickball, and dodge ball.

Fifth grader Kendal receives an ultrasound on a trip to St. Joe's Medical Center.

Fourth graders learn about critical bay issues thanks to the Chesapeake Bay Foundation.

Fifth grader Toney hurls a dodge ball during Team Sports.

Mr. Glassman's fifth grade class circles up to read *Love That Dog*.

Sixth graders work on their musical theater production with Mr. Brown.
