

Weekend Mentoring kickoff at Oregon Ridge

November 19, 2011

On Saturday, November 19, the Bridges seventh grade started its second year in the Bridges Weekend Mentoring Program with a trip to Oregon Ridge Nature Center. Following group bonding activities and lunch, mentors and students ventured into the Oregon Ridge Nature Center for the “Owls and Omens” workshop. The indoor/outdoor workshop exposed participants to the diversity of owls in the wild and provided an opportunity to look for them in the woods.

Students cross a stream during the “Owls and Omens” workshop.

Students and mentors re-connect by sharing one thing each participant is proud of from the last five months.

Mentor Molly takes students Tyreek and Dante on a self-guided tour of Oregon Ridge's nature trails.

The group warms up over a warm pizza lunch.

Students dissect owl pellets to learn more about owls' dietary habits.
