

## Outdoor Week at Bridges June 21 - 25, 2010

On June 21, 2010, Bridges kicked off its five-week summer program on the campus of St. Paul's School. In addition to daily classes in language arts, math, art, and sports, week one provided Bridges students with multiple opportunities to explore and appreciate the outdoors.

Highlights from Outdoors Week included a wonderful presentation by Rob Mardiney from Irvine Nature Center, and trips with the Chesapeake Bay Foundation, Outward Bound, Oregon Ridge Nature Center, and the Downtown Sailing Center.

At the close of camp on Friday, the Blue Team held first place in the race for the Bridges House Cup, a reflection of the team's strong efforts inside the classroom and performance in "Are you Smarter than a Head Counselor - Environment Edition".

Bridges fourth graders pull in oysters during their field trip with the Chesapeake Bay Foundation.

Bridges fifth graders scale the climbing wall at Outward Bound's center in Leakin Park.

A generous donation from the Ravens has provided a new pair of athletic shoes for every Bridges student. Here, students get fitted for their shoes.

Gina Breitmeyer, ninth grade math teacher, teaches swimming to Bridges students.

Students jump rope during the agility trial in the first ever Bridges Sporting Combine.
